Hello,

I am experiencing a very weird situation.
My program called Orion does not show the icons of the iml file applied to the ctrls.
I can see the icons in the iml file. The program compile without error, but no icon appear on the ctrls.
This program used to work properly. Just changed to U++ 13533 and MSVC 2019. Other programs work ok with their icons.
By the way, even old version of the program that used to work properly now have the same issue.
Does anybody had the same issue?

Luigi

EDIT: with MSVC 2017 and U++ 13502 same issue

EDIT2: exactly the same package, MSVC 2017 and U++ 11973 works OK
Is something changed recently with the iml file?

Solved!

The iml file, although well displayed, had many strange characters.
I replaced this corrupted file and everything was OK.
I still wonder why it worked OK on an old U++ distro.

Luigi
