Subject: copying code from web into IDE
Posted by mtdew3q on Sat, 31 Aug 2019 03:47:48 GMT

Hi-

Can copying code from the web into the IDE give you problems? If so, will copying it first into notepad and then pasting it into the IDE remove the formatting safely?

I copied a code snippet from the forum into the IDE. I am not sure, but I think it may have caused problems.

thanks for any help,
roboloki

Hi-

It turns out that the code from the web runs fine. I must have ran into another issue.

Sorry.

thanks.
