Hello,

I would like to have a DropTime that shows only the clock to pick the time, no need to show the calendar.
Do we have something similar o is there a method that hide the calendar? I suspect it exists but I am not able to find it.

Thanks,
Luigi

I suspect that that Ctrl does not exist.
Anyway I'll use an EditString and then parse its content to recover the time.

Luigi

Hello!
I was making an alternative DropTime for my apps based on CtrlParent and several input fields.

It works perfectly! The customer is satisfied!

I'll post it here later.

This control has a very simple code. You can do it yourself.

Hello Luigi!
I've prepare Ctrl and TestProgram

Date inputs as Calendar and time as EditInt.

You can change calendar to flat EditInt's.

Code is very simple.
