I didn't find any spellcheck dictionary files for Russian in the comments. After a little digging, I found a solution.

The UDC file is attached to the post. This file contains both an English and Russian dictionary

Made on the basis of the file https://workupload.com/start/nhmn3wEJUk2

Discuss the problem here (in Russian) http://forum.ru-board.com/topic.cgi?forum=5&topic=29444

If you are interested in the conversion process , I am ready to describe it here.
