RichEdit edt;

i want get the content in the edt when press Enter key.
but the RichEdit do not have WhenEnter event.
how to solve?

solved

Callback whenenter;

```
virtual bool Key(dword key, int count)
{
    if(key == K_ENTER)
    {
        whenenter();
        return true;
    }
    return RichEdit::Key(key,count);
}
```
