Hello Zbych,

It seems that the compilation for the latest CEF on Linux is broken. Could you verify and fix? Here is error list:

/home/klugier/upp/bazaar/ChromiumBrowser/ClientHandler.h (61): error: 'OnBeforePopup' marked 'override' but does not override any member functions
/home/klugier/upp/bazaar/ChromiumBrowser/ClientHandler.h (96): error: 'OnProcessMessageReceived' marked 'override' but does not override any member functions
 (): virtual bool O nProcessMessageReceived(CefRefPtr<CefBrowser> browser,
/home/klugier/upp/bazaar/ChromiumBrowser/ChromiumBrowser.cpp (185): error: too few arguments to function call, expected 6, have 5
/home/klugier/upp/bazaar/ChromiumBrowser/ChromiumBrowser.cpp (283): error: no member named 'LoadString' in 'CefFrame'
/home/klugier/upp/bazaar/ChromiumBrowser/ClientHandler.cpp (64): error: no member named 'LoadString' in 'CefFrame'
/home/klugier/upp/bazaar/ChromiumBrowser/ClientHandler.cpp (192): error: no member named 'LoadString' in 'CefFrame'
/home/klugier/upp/bazaar/ChromiumBrowser/ClientHandler.h (61): error: 'OnBeforePopup' marked 'override' but does not override any member functions
/home/klugier/upp/bazaar/ChromiumBrowser/ClientHandler.h (96): error: 'OnProcessMessageReceived' marked 'override' but does not override any member functions
/home/klugier/upp/bazaar/ChromiumBrowser/ClientApp.cpp (46): error: no member named 'SendProcessMessage' in 'CefBrowser'
/home/klugier/upp/bazaar/ChromiumBrowser/ClientApp.cpp (56): error: no member named 'SendProcessMessage' in 'CefBrowser'
/home/klugier/upp/bazaar/ChromiumBrowser/ClientHandler.h (61): error: 'OnBeforePopup' marked 'override' but does not override any member functions
/home/klugier/upp/bazaar/ChromiumBrowser/ClientHandler.h (96): error: 'OnProcessMessageReceived' marked 'override' but does not override any member functions

Klugier
