Hello,

I saw we have a package for this framework and I want give it a try.
I would like to recognise a chessboard with its pieces from a chess diagram.
I would be gratefull to everybody want to list few usefull resource online (or books) to begin with.

Thanks,
Luigi

Hello Forlano

In Bazaar/OpenCV there are a few utility functions and a sample, that finds lines in this building:

It was left years ago, but it may serve you to begin.
