Hi Novo-

They say after 4 release, 2.5x is dead. Any plans on a 3.0 bazaar firebird?

I am studying all of Helen borrie's books. I am also kind of fooling around with freepascal, so I can play with firebird. I hope you and your friends use Bazaar firebird and have plans for newer version. Thanks

Hi Novo-

Thanks!

I might check out windows

Compiler so I can use FB

In windows with U++.

Have cool weekend :)

Hello Novo! Schemas in files *.sch supported completely? Returns a schema dialect error. I will provide detailed information later...
