Hi,

how do I select

a day on the calendar. example double click! How do I retrieve selected content for a date field?  
any examples?

Thanks!

Hi,

below this work!

```
struct Lbca: Calendar {

void LeftDouble(Point p, dword keyflags)      //rewritten
{
    WhenLeftDouble(p,keyflags);
    PromptOK("ok");
    Show(false); //close calendar
}
Event<Point, dword> WhenLeftDouble;
};

class MainWin : public TopWindow
{
public:
    Lbca ca;

    MainWin()
    {
        Add(ca.LeftPosZ(120, 236).TopPosZ(73, 156));
    }
};
```

Thanks!
