In case of an attempt to cross-compile umk I'm getting a linker error below:

```
----- umk ( OSX MAIN CLANG SHARED BLITZ ) (14 / 14)
```

```

architecture x86_64
```

```
clang: error: linker command failed with exit code 1 (use -v to see invocation)
```

Interestingly, I'm not getting any problems with linking when I'm building my own apps.
