Hello,

is there a overview about all Ctrllmg::..... icons? I cannot find it in the documentation.

Thanks in advance

Hello Isewing and welcome on our forum :)

Right now there is no documentation package about Ctrllmg:: images, however you could see them all by opening CtrlLib/Ctrl.iml file:

Our icon set is basing on Silk Icons set. So, if you do not find icon you are interested about you could add icon from the set into your application by creating separate .iml file and inserting PNG with "Insert image" option.

Thank you for the fast answer and also for this great library.  
:p
