Hi,

It seems 'Nightly builds' have disappeared from the download page. Is this intentional?

Best regards,

Tom

Hello,

Sorry Tom, it was my mistake. I just modified the title from U++ download to U++ Download and the code looks from download that started from small lettter. Now everything should work as previous.

Hi,

No problem. I did not need the nightly at this time. Rather, I occasionally just view the U++ site and try to report any issues to make sure that the essential parts work for possible newcomers.

Best regards,

Tom
