When I compiled ide under Ubuntu, I got the following errors.

```
/home/jc/upp/out/CtrlLib/GCC32-Gcc32-Gui-Linux/CtrlLib.a(Lab elBase.o): In function
`CtrlslImgLook(int)':
LabelBase.cpp:(.text._Z12CtrlslImgLooki+0x38): undefined reference to `CtrlslImg::Get(int)'
/home/jc/upp/out/CtrlLib/GCC32-Gcc32-Gui-Linux/CtrlLib.a(But ton.o): In function
`Option::GetMinSize() const':
Button.cpp:(.text._ZNK6Option10GetMinSizeEv+0x18): undefined reference to `CtrlslImg::Get(int)'
/home/jc/upp/out/CtrlLib/GCC32-Gcc32-Gui-Linux/CtrlLib.a(But ton.o): In function
`Option::RefreshPush()':
Button.cpp:(.text._ZN6Option11RefreshPushEv+0x30): undefined reference to `CtrlslImg::Get(int)'
/home/jc/upp/out/CtrlLib/GCC32-Gcc32-Gui-Linux/CtrlLib.a(But ton.o): In function
`ch_sync__SpinDownImg()':
Button.cpp:(.text._Z20ch_sync__SpinDownImgv+0x30): undefined reference to `CtrlslImg::Get(int)'
/home/jc/upp/out/CtrlLib/GCC32-Gcc32-Gui-Linux/CtrlLib.a(But ton.o): In function
`ch_sync__SpinUpImg()':
Button.cpp:(.text._Z18ch_sync__SpinUpImgv+0x30): undefined reference to `CtrlslImg::Get(int)'
```

(Ubuntu 5.10) I've compiled my package without problem with theide. Then I've compiled it again using the makefile (to link statically libstdc++.so.6) and appeared the error above.  
I've used the recipe of 3togo and it works. It seems the recipe it is effective only when one uses the makefile.

Luigi

Yes, I confirm that the 3togo recipe doesn't work if I compile using theide.

I could comply successfully both ways: using makefile and using ide. Could u be more specific on your problems encountered.

Also, have u removed all previously complied objects of CtrlLib & Draw inside the "out" folder before running IDE?

I am afraid that makefiles are not updated for dev releases yet...

3togo wrote on Mon, 17 July 2006 02:47I could comply successfully both ways: using makefile and using ide. Could u be more specific on your problems encountered.

I got the error message that title this post when ive used the makefile generated by the ide. But the ide was that of version 605. Maybe this was the problem.

Quote:

Yes. When I tried to compile with the ide it complained about the three rows I have added previously and was necessary to remove them and rebuild the whole library.

I suggest u ask Mirek for advices.

If u don't want to wait, u might add the following few lines to upp/CtrlLib/Buttons.h

```
#define IMAGECLASS CtrlImg
#define IMAGEFILE <CtrlLib/Ctrls.iml>
#include <Draw/iml_source.h>
```

and remove(or comment out) the same few lines from upp/uppsrc/CtrlLib/ChWin32.icpp
