```
struct MyApp : TopWindow {
    DropDownList dl;

    MyApp()
    {
        Add(dl.LeftPos(10, 60).TopPos(5, Ctrl::STDSIZE));

        for(int i = 0; i < 10; i++) {
            dl.Add(i, FormatIntAlpha(i));
        }

        dl = 5;

        dl.WhenAction << [&] {
            PromptOK(AsString(dl.GetData()));
        };
    }

    SetRect(0, 0, 200, 200);
};

GUI_APP_MAIN
{
```

```
    MyApp().Run();  
}
```
