Hello friends,

Is there a way to display the mouse x,y desktop coordinates in u++? Not the mouse position within the window but the mouse position of where it is on the users desktop? (Im using windows 10)

Thank you for any help!

Yes.

```
GUI_APP_MAIN
{
 TopWindow win;
 Label lbl;
 win << lbl.SizePos();
 TimeCallback cb;
 cb.Set(-20, [&] { lbl = AsString(GetMousePos()); });
 win.Execute();
}
```
