Getting following error message while compilation for windows which is working fine on Linux

```
"D:\upp/uppsrc/Draw/iml_header.h (34): error: no type named 'Image' in namespace 'Upp::Upp'; did you mean simply 'Image'?"
```

if i change to "Image" i get the following error

```
D:\upp/uppsrc/Draw/iml_header.h (34): error: unknown type name 'Image'; did you mean 'Upp::Image'?
```

windows ide version :16847

Please suggest me what to do for above error

Thanking you

Yours faithfully
varun m
