https://sourceforge.net/projects/upp/files/upp/2023.2rc3/

Some bugs fixed. Hopefully this is the last one.

Hi,

It all seems to work fine here with me.

Just wonder what happened to NoBackPaint();... Or is it not required anymore at all?

Best regards,

Tom

Best regards,

Tom

It is gone... It was "I do not care about flickering" mode.

It is all bit mixed up, as some platforms do backpaint anyway etc... I guess the best is just to ignore it all

Mirek

Hi,

OK, I'm starting to recall that it might have improved scrolling performance on Windows 2000 and XP... maybe.

Anyway, it's all gone now.

Thanks and best regards,

Tom
