Hi,

Updated 16270 IDE Controls4U.

Now my app that has used the InternetExplorerBrowser class for 12 years fails to build with the error:

C1083: Cannot open include file: 'Controls4U/ActiveX.h': No such file or directory.

Is the InternetExplorerBrowser class now defined elsewhere or has this been dropped?

UPDATE:

Contents of Controls4U/Controls4U AFTER latest reinstall:

<DIR> src.tpp
<DIR> srcdoc.tpp

Controls4U.cpp
Controls4U.h
Controls4U.iml
Controls4U.lay
Controls4U.t
Controls4U.upp
Controls4U.usc
Copying
LICENSE
SliderCtrlX.cpp
SliderCtrlX.h
SliderCtrlX.iml
SliderCtrlX.usc
SplitterButton.cpp
SplitterButton.h
src.tpp.\$tmp
StarIndicator.cpp
StarIndicator.h
StarIndicator.iml

Contents of Controls4U/Controls4U BEFORE latest reinstall:

<DIR> plugin
<DIR> src.tpp
<DIR> srcdoc.tpp

ActiveX.cpp
ActiveX.h
ActiveX_base.h
Controls4U.cpp
Controls4U.h
Controls4U.iml
Controls4U.lay
Controls4U.t
Controls4U.upp
Controls4U.usc
Copying
FirefoxBrowser.cpp
IExplorerBrowser.cpp
LICENSE
PainterCanvas.cpp
PainterCanvas.h
SliderCtrlX.cpp
SliderCtrlX.h
SliderCtrlX.iml
SliderCtrlX.usc
SplitterButton.cpp
SplitterButton.h
src.tpp.\$tmp
StarIndicator.cpp
StarIndicator.h
StarIndicator.iml
StarIndicator.usc
VLCPlayer.cpp

TIA

Hi Awksed

These features are deprecated. For this reason they were removed.
For sure the previous code is available if anybody wants to maintain it.

Hi Iñaki,

Many thanks for your reply.

I have added the old ActiveX code to my app and it now builds.

Best regards,

awksed

I am pleased. Sorry to have stopped supporting it.
