Subject: GridCtrl: how to center Option?

Hello,

I know that

gridtb.AddColumn("normal", "", 4).Option();

create an Option centered in all rows. But I need the Option only in some cells.
I have created it in this way

gridtb.SetCtrl(0,3, new Option());

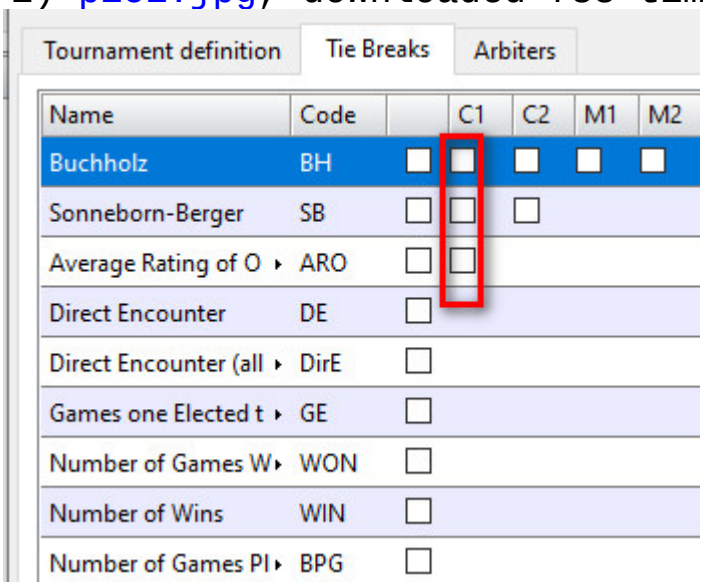

and it looks ugly (see picture).

Is there a way to center it, or a better way to create it?

Thanks,
Luigi
