Subject: Paste clipboard in MS Teams

Hi all

I have seen that bitmaps copied to the clipboard from U++ doesn't paste into MS Teams, although they paste into other MS Office applications.

Going to the detail, we save to the clipboard using the CF_DIB format. However, it seems, and I have confirmed with a simple test, that Teams works with CF_BITMAP.
I have tried to modify U++ to support CF_BITMAP, but I have failed.
If anybody is more able than me, please try to implement this. Thank you!
