---

Could you please fix a compilation problem below? Compilation is broken for several days.

```
./umk reference SQL_PostgreSql CLANG -bus
```

```
/home/buildbot/worker/al-upp/build/reference/SQL_PostgreSql/Postgres.cpp:11:12: error: no viable overloaded '<<='
```

```
    m_refresh <<= THISFN(ShowTestData);
```

```
    ~~~~~ ^ ~~~~~
```

TIA
