Hi,

Nightly builds `upp-posix-17662.tar.xz` - `upp-posix-17690.tar.xz` do not run on Linux Mint.

They compile OK, but when running, I get Segmentation fault.

The last build, that worked - `upp-posix-17647.tar.xz`.

Linux Mint 21.3

Desktop: Xfce 4.18.1

tk: Gtk 3.24.33

Display: x11

Best regards,

Victor
