Works well here.

Best regards,
Oblivion

FYI, the RSS feed appears to be doubling up the index.php e.g.

https: //www.ultimatepp.org/forums/ index.phpindex.php
?t=rview&goto=61941&th=12536#msg_61941

(Broken up as I cannot post links)

Hello Mirek,

It looks like profile images were not migrated as expected...

It looks like the RSS links are pointing to the old forum.

For example RSS for this topic is https://www.ultimatepp.org/forums/index.phpindex.php?t=rview&goto=61940&th=12536#msg_61940

I have tried to rebuild caches. Does this seem OK or not?

My mistake — as damojms mentioned, the problem is that index.php is doubled.
URL from you post is still broken.

https://www.ultimatepp.org/forums/index.phpindex.php?t=rview&goto=61950&th=12536#msg_61950

I must admit I do no know how it is supposed to work, but I do not see doubled index.php in the feed.php results...

I hope this helps you to debug the problem:

curl "https://www.ultimatepp.org/forums/feed.php?mode=m&l=1&basic=1" | grep index.phpindex.php
