Hello,

```
#include <CtrlLib/CtrlLib.h>
```

```
using namespace Upp;
```

```
GUI_APP_MAIN
```

```
{ PromptYesNoOpt("Do you want to see me again?");  
}
```

perhaps I have not understood how the Opt should work.

I would like that when "Do not show it again" is checked it should stop to appear.

Instead it continues to appear irrespective of my choose.

Thanks,

luigi

This works:

```
GUI_APP_MAIN
```

```
{  
    String cfg = AppendFileName(GetHomeDirectory(), ".myapp_prompts.bin");
```

```
{  
    FileIn fi(cfg);  
    if(fi) SerializePromptOptHistory(fi);  
}
```

```
PromptYesNoOpt("Do you want to see me again?");
```

```
FileOut fo(cfg);  
if(fo) SerializePromptOptHistory(fo);  
}
```
