Subject: 2026.1 Regression

Hi,
In Linux Mint Cinnamon Edition, latest stable version 2026.1 seems to have broken TopWindow::Maximize and similar.
Calling Maximize() or Minimize() has no impact at all.
In 2025.1.1, it does work fine.

Hi,

Thanks for the report.
The regression regarding windows mode (fullscreen/maximize/minimize) should be already fixed in the latest Upp github master branch.
I've just tested on Mint/Cinnamon 22, and it works as inteded.

For the record, PR that fixes the issue is here.

Best regards,
Oblivion
