What happened to the step-by-steps that used to be online?

Google cache still has http://64.233.187.104/search?q=cache:JIBNWbx_qhcJ:upp.sourceforge.net/examples%24Scribble1.html+scribble&hl=en&gl=us&ct=clnk&cd=2 but U++ just has [http://upp.sourceforge.net/examples\\$Scribble1.html](http://upp.sourceforge.net/examples$Scribble1.html)
