In file tutorial/Image03/main.cpp line 42
 ImageBuffer ib = img;

it causes an error
----- Image03 (GUI MAIN GCC32 DEBUG SHARED DEBUG_FULL BLITZ LINUX) (10 / 10) main.cpp

/home/nico/upp/tutorial/Image03/main.cpp:42: error: no se encuentra una función coincidente

Image03: 1 file(s) built in (0:02.74), 2746 msecs / file, duration = 2758 msecs

There were errors. (0:02.88)

I correct this error by adding the next code:

ImageBuffer ib ;
ib=img ;
