Trying to build /uppsrc/ide under WindowsXP && MSC8 yields the error message

...\upp\uppsrc\ide\icondes\IconDes.h(5) : fatal error C1083: Cannot open include file: 'IconDes/IconDes.h': No such file or directory

Indeed "IconDes.h" appears strange to me:

"#include <IconDes/IconDes.h>" lists a non-existing path which explains the error message. I think it should read: "#include <ide/IconDes/IconDes.h>.

Furthermore I cannot comprehend what sense it makes if a file (IconDes.h) includes itself (IconDes.h).

Werner

Werner

There should be IconDes package (general icon editor) and ide/IconDes package (...TheIDE interface of IconDes).

...ooops. I think I understand the problem - we forgot to alter release system to include this new IconDes package...

Sorry about that. I am going to fix this now.

Unfortunately still not working (WindowsXP && MSC8):

IconDes.cpp
D:\ProgWin\upp\uppsrc\IconDes\IconDes.cpp(405) : error C2660: 'UnpackImlData' : function does not take 1 arguments
D:\ProgWin\upp\uppsrc\IconDes\IconDes.cpp(422) : error C2660: 'UnpackImlData' : function does not take 1 arguments
D:\ProgWin\upp\uppsrc\IconDes\IconDes.cpp(425) : error C2660: 'UnpackImlData' : function does not take 1 arguments
D:\ProgWin\upp\uppsrc\IconDes\IconDes.cpp(438) : error C2660: 'UnpackImlData' : function does not take 1 arguments
D:\ProgWin\upp\uppsrc\IconDes\IconDes.cpp(441) : error C2660: 'UnpackImlData' : function does not take 1 arguments
ImlFile.cpp
D:\ProgWin\upp\uppsrc\IconDes\ImlFile.cpp(206) : error C2660: 'UnpackImlData' : function does not take 1 arguments

Thank you. But were can I get the latest version? There should be a working one, because TheIDE dev10-1 is running fine. On the other hand SVN is Revision 38 (September 9, 2006).

I need to be able to compile "ide" by myself, because I intend to patch it

Werner
