Subject: Germany-based Ultimate++ Web Site Relaunched

On the occasion of the forum migration I've relaunched my Germany-based Ultimate++ web site:

LINK OUT OF DATE

Not only are the links checked and updated but there is also a paradigm shift:

As I lack the time to maintain an ambitious web site, I no longer intend to publish English and German Ultimate++ stuff on this site. Instead I keep it as an Ultimate++ multiplier and a German-language signpost to Ultimate++ histrionically expressed: as an Ultimate++ beacon in the Internet ocean ...

Anyway, I hope you'll find at least some interesting links on my site.

Tell me if you spot any bugs or alike on my site.

Werner
