I have layouted a window and put some controls on it.
I set the window sizeable, and I found that, I can't size the windows smaller than I layouted.

I can imaging the season might be that the program what to maintain the layout of the program,
but you know, sometimes people just have lots of strange require ^^"

Does there are anyway I can get rid of the minimal size limitation of window lyaouted?

Thanks a lot ^_____^
