Subject: Duplicated icons in the toolbar (511.r13 WinXP) [BUG][FIXED?]

I am using theIde 511.r13 on WinXP.

When I minimize all windows to the taskbar (Window key + D) and then restore theIde window, the last three icons of the toolbar get duplicated.

This would not happen if I minimize theIde using the button on the window header.

Thanks! In fact, I noticed this bug before, but never found a way how to reproduce it! (it seems to happen in more cases as well)
