Linking...
/mingw/lib/crt2.o:crt1.c:(.text+0x16a): undefined reference to `__cpu_features_init'
collect2: ld returned 1 exit status

What was that?
I'm getting this error when trying to link any application with Mingw-upp.

All examples or just specific one?

(Daniel does full compilation test of all examples before each release...)

Mirek

Yes, any example or any correct code that was compiling with other releases.
