Ctrl now detects and delivers some new mouse events:

Ctrl::

```
virtual void LeftTriple(Point p, dword keyflags);  
virtual void LeftDrag(Point p, dword keyflags);  
virtual void LeftHold(Point p, dword keyflags);
```

```
virtual void RightTriple(Point p, dword keyflags);  
virtual void RightDrag(Point p, dword keyflags);  
virtual void RightHold(Point p, dword keyflags);
```
