Changelog

TheIDE now accepts file drops
ColumnList supports drag & drop
fixed rotated text problem (DrawText with angle) in X11
fixed problem with Ctrl+1 - Ctrl+0 keys in X11
ArrayCtrl and TreeCtrl support showing small popup if cell's width is not enough to display the text. It can by switched off by NoPopUpEx()

Code editor highlights Sql functions, boolean expression, U++ macros and text in upper case. Default color is black. Change it see the effect
Code editor marks edited lines as well as lines with warnings and errors (Ralf - Zardos)
inital support for drag & drop in X11. Small stability fixes to win32 drag & drop.

Test and enjoy!

hi unodgs

can you update a svn repository?

Just downloaded latest dev.
And try to compile TreeCtrlDnd, it complaint about 'RemoveSelection' function not found.

And try to compile TreeCtrlDnd, it complaint about 'RemoveSelection' function not found.

Fixed.

Quickfix: Add this inline to TreeCtrl:

```
void        RemoveSelection()            { Remove(GetSel()); }
```

There is a bug in ColumnList::GetDragSample. The correct code is:

```
Image ColumnList::GetDragSample()
{
 Size sz = StdSampleSize();
 ImageDraw iw(sz);
 int y = 0;
 for(int i = 0; i < GetCount() && y < sz.cy; i++)
  if(IsSel(i)) {
   PaintItem(iw, i, RectC(0, y, sz.cx, cy));
   y += cy;
  }
 return Crop(iw, 0, 0, sz.cx, y);
}
```

The original was missing the y increment and the Crop call.

James
