I get a timestamp by using this:

String timestamp = GetSysTime().ToString();
The result looks like this:

05/30/2007 20:55:38
How can i format these string that it looks like this:

30.05.2007 20:55:38
?

Michael

Thanks Luigi, this works:

SetDateFormat("%3:02d.%2:02d.%1:4d");

Value time = GetSysTime();
String timestamp = time.ToString();
The result looks like this:

31.05.2007 09:28
