hi,

i think it's time to put some restrictions on the wiki...
this old version http://www.ultimatepp.org/wiki/index.php?title=Main_Page&amp ;oldid=1383 looks pretty empty, but a click on 'edit' reveals that there are lots of hidden references to sex-sites...
i took the liberty of restoring former glory, but anyhow every stupid script can change that ... so, maybe activationg the password option is not tooo bad of an idea,

kind regards, abductee

Would you like to become wiki admin? Would be quite helpful.

unfortunately, i have to disapoint you.
i do not think i have the time/capabilities to be a full admin of the wiki. and i have the strong convition that i am a better programmer than i am an admin. however i would not mind of occuping the "position" of a co-admin for a limited time.

kind regards, abductee.
