BTW, when I try with UnitTest++, I get the same kind of error:

```
#include <Core/Core.h>
```

```
// test.cpp
```

```
#undef CHECK
```

```
#include <UnitTest++.h>
```

```
TEST(FailSpectacularly)
```

```
{  
    CHECK(false);  
}
```

```
CONSOLE_APP_MAIN
```

```
{  
    UnitTest::RunAllTests();  
}
```

I wonder if it has to do with some circular dependency...
