At the end of this file in documentation there's a link pointing to the mailing list instead of the forum.

[http://www.ultimatepp.org/app\\$ide\\$GettingStarted\\$en-us.html](http://www.ultimatepp.org/app$ide$GettingStarted$en-us.html)

"This file is a work of progress, if you have suggestions for it, please post them on the mailinglist."

BTW, problems in documentation should have the [BUG] label?  
BTW2 Is this the right place to discuss about documentation?  
BTW3 the mailing list is becoming populated with spam : @ @ @ @

David

uh, there's a little misspelling too in Section 21 of

[http://www.ultimatepp.org/srcdoc\\$CtrlLib\\$Tutorial\\$en-us.html](http://www.ultimatepp.org/srcdoc$CtrlLib$Tutorial$en-us.html)

, in the phrase

While empty rectangle in layout designer is usually enough for seldom used widgets, you can also tech TheIDE to show something better using .usc script file:
