Dear all,

I am sorry if i asked something stupid.

I have looked at configuration dialog but did not see show line number option in Code Editor.

Any idea?

JE

->Setup (in Main menu)
->Environment (Submenu)
->Editor (tab)
->ShowLineNumbers (thick the box)

P.S. I'm also not happy that it is buried too deep and was going to change in my own version but life shows that this is a low priority...

Thanks !!

Buried too deep, but i agree with you, better doing more important thing.

JE
