In file 'callback.h', the line 249, which is

```
return Callback(new CallbackMethodActionArg4<Object, R (O::*)(A, B, C) const, T1, T2, T3>
```

should be

```
return Callback(new CallbackMethodActionArg3<Object, R (O::*)(A, B, C) const, T1, T2, T3>
```

and the line 274, which is

```
new CallbackActionCallArg3<Callback4<A, B,C,D>, T1, T2, T3>(cb, arg1, arg2, arg3));
```

should be

```
new CallbackActionCallArg3<Callback3<A, B,C>, T1, T2, T3>(cb, arg1, arg2, arg3));
```

(already corrected in svn repo)

Ciao

Max
