Once again, a log file (inside same directory) is automatically created when running my MT program compiled in release mode.

Shouldn't this only happen in debug versions?

Regards,
Matthias

Yes.

Perhaps you can help a bit by posting the log

In fact, even in debug mode, there should not be any logs... unless activated.

Yes the log could be useful , its content is:

01/14/2008 14:27:32: GuiSleep
01/14/2008 14:27:32: GuiSleep 2
01/14/2008 14:27:32: ExitLoopEventWait 1

It is ok again in SVN rev 91 (801.r99), i.e. the log is not created.

Thanks,
Matthias
