Subject: ValueMap
Posted by mirek on Sun, 20 Jan 2008 18:18:55 GMT

Added simple ValueMap, similar to ValueArray, but with keys.

ValueArray and ValueMap are mutually convertible.

One of important uses was to simplify dealing with multi-index converts in ArrayCtrl - you can now address individual values using either ValueArray or ValueMap... (column Ids are used as keys, obviously).
