Please find attached the Finnish translations for Upp 2008.1beta.

While translating, I also noticed something to fix in FileSel:

```
/home/tom/upp/uppsrc/CtrlLib/FileSel.cpp(859): s << drives << t_(" drives(s)");
```

... should probably be drive(s) instead of drives(s)

Thanks, applied.

Anyway, might I ask you to use the new method using "AllFor18n"?

[http://www.ultimatepp.org/srcdoc\\$Core\\$Translating\\$en-us.html](http://www.ultimatepp.org/srcdoc$Core$Translating$en-us.html)

(I am missing translations for e.g. Oracle packages).

Mirek

Hi,

Actually, I did use the new instructions given ([http://www.ultimatepp.org/srcdoc\\$Core\\$Translating\\$en-us.html](http://www.ultimatepp.org/srcdoc$Core$Translating$en-us.html)). I was also a bit confused that the Oracle translations were not there before as I was quite sure I had already translated them once. I downloaded the file I uploaded two days ago and the "// Oracle/Oracle.t" part is there including the translations. I can't figure out what goes wrong...

Hm, I am now a little bit confused. Anyway, the important part is - how can I get missing translations?

Here are missing fifi translations... (.tr):

LANGUAGE "FI-FI UTF-8";

" drive(s)",
"" ,

" folder(s)",
"" ,

" file(s)",
"" ,

"Show hidden",
"" ,

"Search",
"" ,

"Append",
"" ,

"Insert ",
"" ,

Hi Mirek,

This is indeed very strange. For some reason the system is not reading in my translations. Anyway the strings you are asking for are already translated in FI-FI.UTF-8.tr in my first post. Open the file in TheIDE and see for yourself. They are not necessarily in the same order, but they're still there.

Sorry, my mistake... now everything ok (perhaps forgot to add fifi to Oracle... who knows...)

Mirek
