Hi,

How do I programatically reach the ruler of the richtext control and change the left margin?
I am using the RichEditWithToolBar version in a form.

Thank you

Alex

Ok, after a night of source code investigation i reach one solution:

```
RichText::FormatInfo f = txText.GetFormatInfo();
```

```
f.lm=1000;
```

```
f.rm=1000;
```

```
txText.ApplyFormatInfo(f);
```

Alex
