Quote:
Can you forward these wishes to GridCtrl-Developer?:

- A function to get align of a column (GetAlign)
- A summary line (like the headerctrl - but on bottom with min/max/sum/count values for each
column). Thats all.

Thanks in advance

Yes, I can forward them

Do you mean top/bottom not scollable (fixed) row? (could you post any screenshot or detailed
description?)

Hi Uno!

I added a ScreenShot (from a Delphi Component). It would be helpful to have such a footerbar -
need not to auto-calculate min/max/sum/count.
