Hello,
I am new to Ultimate++ and I have not too much experience with c++ development.
I need to make some work using Ultimate++ in the next time. For example, the first work will be to add new skills to the Home budget program, like filtering the records, print capabilities, adding new pages, some permission level..
Later on, other projects..

I am looking for a good U++ developers that would like to do it.
I am in Italy but we can do all this it without problems per e-mail. No problems about payment; I can do it like you will, but please make me a fair price...

Please e-mail me if you are interested, I will reply to you
very soon.

Many thanks in advance, kind regards,

Giuliano

Sorry,

I forgot the e-mail address:
info @ runnerpizza. net   (without spaces..)

Thanks

Giuliano
