1. install U++
2. install MS VC 9
3. U++ Methods Auto-setup detects Win32 SDK directory now, but VC 9 directory not detected. i chose Visual Studio's, VC, and VC\bin directories, but none accepted by U++. after i clicked OK and reenter this configuration, it forgot what i chose. (i clicked Create Visual C++ 9.0 build method, too)

Hi,

here is a screenshot of my configuration:

kodos wrote on Wed, 09 April 2008 15:07Hi,

here is a screenshot of my configuration:

Here is another screenshot which looks quite the same. The only difference is the additional SDK "Microsoft Platform SDK for Windows Server 2003 R2". Actually, this is a reminiscence of Microsoft Visual C++ 2005 Express Edition. I'm not sure whether it is still necessary. Anyway, the configurations shown are known to work well.

Werner
