Subject: [BUG] Link option -O 2

I'm using 2008.1Beta2 on W2k/XP. It's giving a non-fatal error when linking:

Linking...
(option '-O 2' ignored)

I have it on good authority that this ought to be '-O2'. I didn't put in either option myself; nor can I find where this is set.

Well, it does it since the beginning

Please, just ignore this ignore message
