Hello,

Is there a "print preview" function available for either RichEdit or RichText? I searched the forums and the source and did not see anything. Please let me know if there is one already written, if not I will make the attempt   .

Thanks,
Dave

No, there not one.

If you want to try to develop it, consider using Report IMO...

Mirek

I will make the attempt. I had already looked at Report and figured it would be a good starting point. I'll keep you posted on my progress.
