Thanks guys for a great deal of effort on this.

I noticed some issues with the English documentation and would not mind working on this area.

You are welcome.

It is not very complicated, just learn how to use Topic++ and send the files

Mirek

Hi Justin,
Contributions are welcome! Play around with Topic++ editor to see how the documentation could be edited. Small changes are continuously done to the documentation, so it is advisable to edit the very latest version, which could only be accessed through uvs2. Check back when you feel confident with Topic++, and ask for instructions about uvs2.
